You are invited to apply for the inaugural Year 8 Seaton High School Emerging Technologies Specialist Program in 2019.

Seaton High School is proud to announce this exciting new specialist program in 2019. Students will have the opportunity to engage in a range of creative applications of emerging technologies such as Computer Aided Design, advanced manufacturing and resin 3D printing. Students will tackle real world challenges framed around conservation and applied geospatial science using UAV technology and industry standard 3D mapping software PIX 4D. Seaton High School integrates design, innovation and entrepreneurship to create a learning environment that focuses on problem solving and critical and creative thinking to empower students with the key skills imperative for jobs of the future.

Applications can be downloaded from www.seatonhs.sa.edu.au

Please Submit all applications to Livia Conserva, Front Office Seaton High School.

Developing Skills In...

Critical and Creative Thinking

Collaboration and project management

Innovation and Entrepreneurship

Through a Focus on...

Remote Sensing and Applied Geospatial Science

CAD, Advanced Manufacturing and Business Enterprise

Robotics

Sustainability, Automated Systems for Farms of the Future
